

- Python Flask or FastAPI -
https://www.reddit.com/r/flask/comments/13pyxie/flask_vs_fastapi/
- Python is more preferred here over C# - more colleagues know Python, more official SDKs available for machine learning, LLMs and AI services
- API server knows nothing about UI implementation
- API server knows nothing about UI implementation but only serves API calls via HTTPs
- API server route handlers do not contain implementation, but use abstract classes instead

Implementation 1 - Open AI

Implementation 2 - Google
Lens

Implementation 3 - Mixed

Implementation 1 - Open AI

Implementation 2 - Anthropic

Implementation 1 - File
System

Implementation 2 - SQLite

Implementation 2 -
PostgreSQL

React / Next.js
